

NOTICE OF WORK SESSION

Buchanan City Commission

The City Commission for the City of Buchanan will be holding a walking-tour Work Session of three separate facilities the morning of Friday, November 19, 2021, beginning at 8:00 a.m. The first part of the walking-tour Work Session will begin at the City of Buchanan's newly operational Oxidation Ditch, located within the City of Buchanan Wastewater Treatment Plant, which can be found at 504 River Street, Buchanan, MI, 49107. The second part of the walking-tour Work Session will take place at 700 East Third Street, Buchanan, MI 49107, where the City Commission will be getting a short tour of a building currently being offered as a potential place to rent to temporarily house the City of Buchanan Public Works operations. This part of the walking-tour Work Session is anticipated to begin around 8:40 a.m. The third part of the walking-tour Work Session will take place at 324 E. Dewey Street, Buchanan, MI, 49107. This part of the walking-tour Work Session is anticipated to begin around 9:00 a.m.

Work Session Purpose

The role and purpose of this walking-tour Work Session will be to allow City Commissioners to view all three locations and ask questions about the locations. No decisions are on the agenda to be made during this 3-part walking-tour Work Session.

Anyone with questions may contact City Manager Heather Grace at (269) 362-2545.
Thank you.
