TECHNOLOGY POLICY

Introduction

Conyers Adventist Academy (CAA) acknowledges the importance of technology as an integral part of education in the 21st century. As such, it encourages the integration of technology with our instructional programs and classroom practice to promote its educational purpose and to facilitate contemporary productive academic pursuits. To that end, we are pleased to be able to offer our students access to computer technology in various forms as well as Internet access, specific online services and the school network. For students to enjoy this access on a continual basis, they must conduct themselves with the Christian values the school embraces and agree to adhere to the policy here within. Parent and student are asked to read this document and their grade-level policy in its entirety and acknowledge acceptance with their signatures.

Definition

For the purpose of this document:

- Technological resources (technology) include but are not limited to electronic devices, programs, networks and the Internet.
- The term 'iPad' refers to the 'school-provided iPad' issued by Conyers Adventist Academy.
- The term 'Chromebook' refers to the 'school-provided Chromebook' issued by Conyers Adventist Academy.
- The term 'device' can refer to either i-Pad or Chromebook based on what has been issued to a student by Conyers Adventist Academy.
- Hereafter, 'CAA' will be considered as the shortened form of Conyers Adventist Academy.

NOTE: Students are not allowed to use any other mobile device during school hours, except with the permission of their classroom teacher or principal.

Social Media Policy

The school's information technology resources, including email and Internet access, are provided for educational purposes. Students do not have permission to access or use social media in any of its various platforms at any time during school hours. Additionally, as long as a student is enrolled at CAA, off campus online behavior that shows the school in a negative light can be held against him or her. This includes, but is not limited to, online bullying outside of school hours of another CAA student. Parents are encouraged to monitor student use of technology while off-campus. If you have any doubt about whether a contemplated activity is acceptable, consult with your immediate teacher, supervisor, or principal to help decide if a use is appropriate.

Sanction/Consequences

The use of CAA-provided information technology resources is secure, but not private. School and network administrators and their authorized employees monitor the use of information technology resources to help ensure that uses are secure and in conformity with this policy. Administrators reserve the right to examine, use, and disclose any data found on the school's information networks in order to further the health, safety, discipline, or security of any student or other person, or to protect property. They may also use this information in disciplinary actions and will furnish evidence of crime to law enforcement.

The school reserves the right to determine which uses constitute acceptable use and to limit access to such uses. The school also reserves the right to limit the time of access and use. Students shall understand that should they be found in violation of this policy, the consequences could include, but are not limited to: restricting access to the device, disabling device features or applications, the revocation of all network access, suspension or exclusion from school, or legal action by the authorities. Students or parents should contact the classroom teacher or principal if they have any questions about this agreement or its implementation.

Grades K-2 Acceptable/Unacceptable Use

Adherence to the following policy is necessary for continued access to the school's technological resources. Use of iPads is subject to the school's behavior code of conduct. Each student is responsible for the iPad they have been given and will ensure that they do their best to prevent damage to their loaned device. Students are NOT allowed to take the iPad home for any purpose since iPads are insured from damage only whilst in school. Failure to comply with this rule will result in permanent confiscation and/or fees to the student's account.
