Note: With current technology, the world is easily our church, neighborhood, and greater community -- even WhatsApp works.

Dear God:

1. What else should I do to exhaust all the ways that You want me to use my skills, knowledge, talent, etc. for Your glory and honor?
2. What excuses have I been giving to You for not doing the good works I am impressed to do in my family, church, neighborhood, or greater community? Give me wisdom and a fearless spirit to act according to Your will always.
3. What steps should I take to use resources -- typically used for secular reasons --to creatively help in building up Your kingdom, O God?
4. If You have given me the ‘code-switch’ skill -- flexibility to EASILY make all types of people feel comfortable -- how can I help bring different ethnic or social groups together for Your glory -- to bring unity, love and hope across different groups in today’s world?
5. How can I learn to trust You more in overcoming my perceived deficits and real fears so that I fulfill Your purpose for my life in spite of any abuse or pain in my experience? May I realize that my experiences and struggles may help draw others to You through my ministry.
6. As a church leader, how well have I facilitated the understanding of possible ministries for members to explore and fulfill their good works which You have prepared for them?
7. As a young adult or youth -- even mature adult -- give me the courage to actively seek help with my spiritual needs and my passion for service with church leaders, Bible-enthusiastic friends and coaches so that I may fulfill Your purposes for my life every single day.
