All School Thanksgiving Dinner

Nov. 19

**Early Release, Grades 1-8, No hot lunch
(Childcare open until 5pm)**

Nov. 22-26

Thanksgiving Break—ALL SCHOOL CLOSED

Week of Prayer with Pastor Jason
"It's Miracle Time!"

Teacher Martha's Class

Birds were our theme this week as we studied the story of how the birds fed Elijah. God led him to a stream for water and from there the birds took care of Elijah. A wonderful reminder that God has us all in His hand.

A field trip to the Birds of Prey was not able to happen, so we watched a couple of videos to learn about them instead.

We worked on counting and number recognition. The kids are doing well at counting and are starting to recognize their numbers. We worked on 1-9 this week.

We had a couple of crafts this week. We painted pumpkins for harvest and we also did an Elijah craft. The kids did good a working on pen control and some are working on coloring with reason and not just scribbling. 2 kiddos even ventured and cut out their own craft!

We had a fun week with Pastor Jason during "Miracle Time!" He told us a different miracle story each day during our week of prayer. The kids really enjoyed his time and energy, Thank you Pastor Jason!

Curious Kinders News

Dear Families, This week we spent a bit of time completing our unit on different occupations. Someday, COVID willing, it would be fun to have you parents come in and share what you do for work. I think that would really be interesting for the kiddos. We also learned about compassion and thankfulness. The kids made thankfulness trees, which we made a new bulletin board with. You are welcome to come to the classroom and see their creative works. We also pretended that we had different jobs on Thursday. We were zoo keepers, car parkers, mailmen, and played various community service games. We also worked on sequencing, patterns, the number 14 & 15, and the letters O & P.

For share time next Friday, the students will be sharing what weather they like the best, what they like to do in that weather, and why they like it.

Have a great weekend! Mrs. Powell

Mrs. Davidson's Classroom

This week was Week of Prayer, so we had chapel every day. Thank you, Pastor Jason, for coming to speak to us about the miracles of Jesus! My favorite was when He fed over 5,000 people with two fish and five loaves of bread.

In Social Studies we learned about the Ancient Aztecs in Mexico. They had three calendars; one of them had 13 months with 20 days in each month, and a different symbol for each day. Next week we will start Science.

We also made rice pudding to go with the first-grade reading book, Arroz con Leche. It was really good! In P.E. we practiced long-rope jumping.

Today is the last day of the quarter, so make sure you turn in all of your work by Monday. Have a great weekend! - Chloe, 2nd grade

Mrs. Messecar's Classroom

This has been a whirlwind of a week! Students are very busy working on a Social Studies project in which they are doing research, writing a report and making a presentation to their classmates, as well as writing on a classroom timeline what they studied from Reconstruction to the Industrial Era of the United States history. They are finding it quite interesting and also overwhelming in some aspects. They are covering: social reforms, politics, movement, industry, presidents of the time, and inventions. Each one drew out of a container the information that they would study and report on. There were a few groans, but they have all dug in this week to make it happen. This Friday is the day that they present.

It will be their first presentation this year.

Other work has been their makeup work, correction work, and finishing chapters or units in their reading and math classes in preparation for the end to this quarter and looking forward to a new quarter to begin next week.
