## 5<sup>th</sup> & 6<sup>th</sup> Grade Mrs. Amy Kimberly

It's the end of the 1st quarter! I can't believe it. There have been a lot of absences due to illness, please remind students to get in the missing work as soon as possible. Thank you!

In Science this week, we have continued learning about DNA. The students have been working on models that translate DNA to RNA. We even had a Forensic Serologist come and talk to us about how the cell makes proteins.

In 5th grade Math, we continued working with decimals. The students have learned to estimate problems with decimals, how to answer them with mental math, and complete word problems involving money with decimals. 6th grade is working on using the order of operations to answer problems involving adding, subtracting, multiplying, and dividing mixed numbers.

## Mrs. Janet Lopez

This week in 5/6 grade Bible we read about King David and his sons. We were sad with David about his rebellious son Absalom and celebrated with Solomon as he became a wise king. We celebrated with a coke and mentos explosion!

We write about Bible each day in our journals.

In social studies we are learning about Lewis and Clark and in English we wrote an informative paragraph and acted out the plays the students wrote! It was a fun filled, busy week!

Remember to study for MV and spelling quizzes. Students also need to read their AR books and take quizzes in the library.

Have a great weekend!
