

August 18, 2021

Church Family,

As many of you already are aware, this past Tuesday the Covid dial in Lincoln moved back into the orange. While we all would like to have this virus disappear, it seems we are going to have to continue to manage life with it present. At our last church board meeting we voted that as long as we had people to lead out and the government departments allowed, we would continue to meet in-person and online.

In an effort to continue to meet in person for all church gatherings, we are asking that you please consider wearing a mask to help limit the spread of this virus. Our church family has recently had an increase in our Covid cases. To help limit our collective risk, if you have had direct unmasked contact in the last 7 days with a person who currently has Covid, or if you feel sick please choose our online service until you know you are not contagious. We want to protect each other from this virus.

Thank you for your cooperation,
Piedmont Park Pastoral Staff
