**Lylton Powell, Teaching Principal**

## **SAIPAN SDA SCHOOL & CDC NEWSLETTER**

An educational Institution with the mission to learn, love, and give.

Students at Saipan SDA School continue to study and research issues during their first quarter of school in the area of Life Science as it relates to “The Creation of the World” and the existence of the human race. In the Elementary upper level and lower level classes the “Bible Encounter” North American Division educational curriculum is instrumentally used to enhance real life’s mental and spiritual growth. Likewise, the Child Development Center is engaged in “The Creation” as they too are introducing a new curriculum through the new NAD Early Childhood Development program. New songs are being taught as the learning experience has increased their knowledge so that children may better understanding their purpose, being able to give back to society in a positive and optimistic way. The program prepares all CDC students to be ready in areas of language arts, science, social studies, religion, math, and other required courses, in exciting ways, as they will begin later to matriculate into kindergarten and the higher educational program. Future reports of school growth will include many fun activities in the learning environment as well as the great extra-curricular activities of the school’s overall educational program.

### **BEACH CLEAN-UP INVOLVEMENT**

7<sup>th</sup> and 8<sup>th</sup> graders volunteered their time helping in International Beach Clean-Up as they took part in cleaning the large area at Tank Beach, Saipan, Northern Mariana Island. This past Sunday they collected bags of trash and other foreign items as they contributed community service hours, wanting their beach to be a safer place for the ocean animal’s habitat and for Saipan tourist and community to enjoy life.

## SOCCKER BALL SEASON COMES TO A CLOSE

They tried by throwing the ball, kicking the ball, grabbing the ball, but now they had to say “farewell” to a game well spent in learning and fun. The proud coach, Richard McWilliams, and the brand new Saipan SDA Saipan Soccerball Team bid “good-bye” as they played their last game with a lot of fun in their extra-curricular activity. They are determined to return next year even stronger and wiser. It was wonderful that they endured, and will go down as being a team strong and courageous. The athletic department also wish to thank all the parents and sponsors who helped make the children’s positive experiential dream come true.
