
Historical Background

The Friendship Company (TFC) was formed with the purpose of being an intentional multi-ethnic church that actively engages the spiritual gifts and talents of its members for worship, community building, and missional outreach. We became a formal Company of the Alberta Conference of Seventh-day Adventists on October 12, 2020. TFC exists to reach out to the sizable number of unchurched people of Lacombe, as well as to former members of the SDA community who for one reason or another are no longer actively following Christ.
